

Name: B C Yugesh

Reg no:192424282

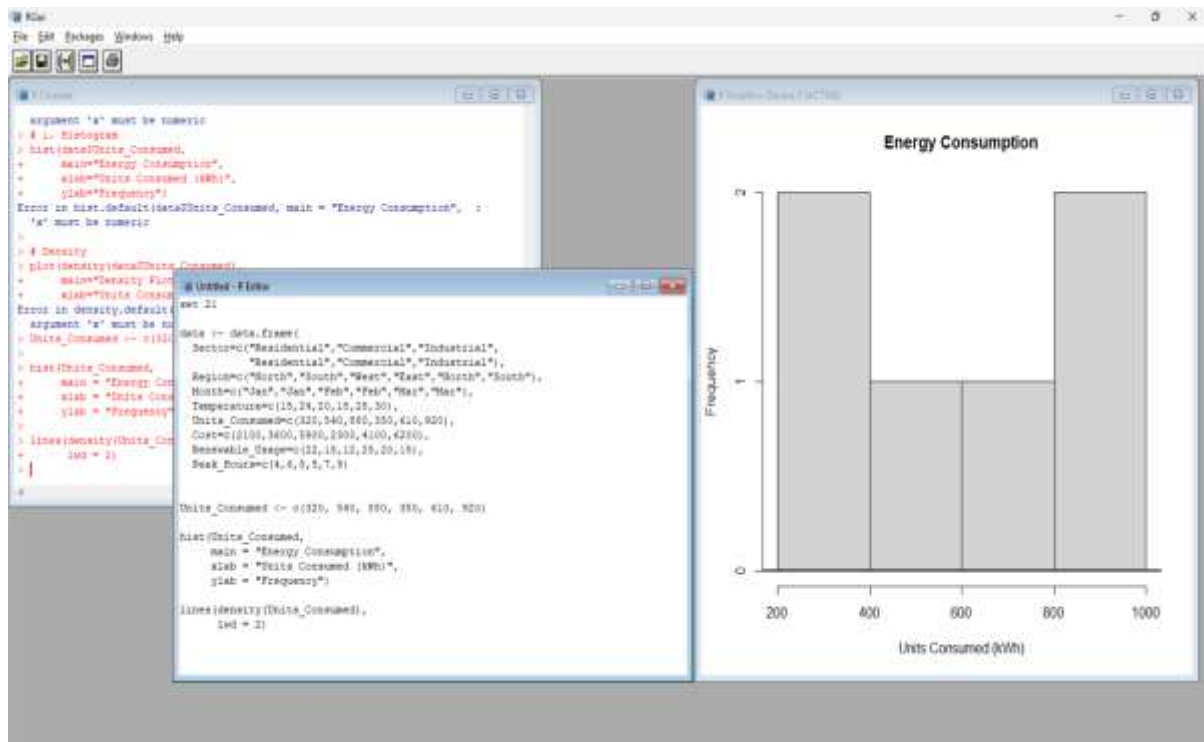

Course code: DSA0604

Course: Data Handling And Visualization

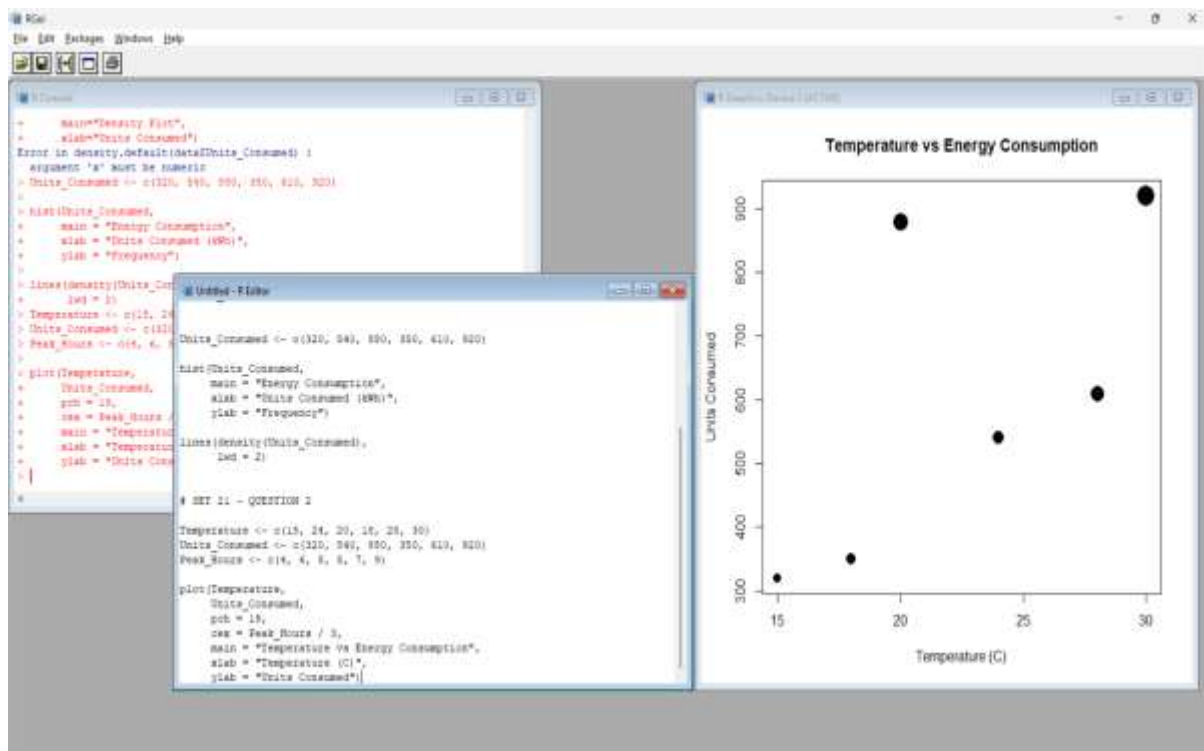

Lab Experiments

SET 21 – Energy Consumption Analysis

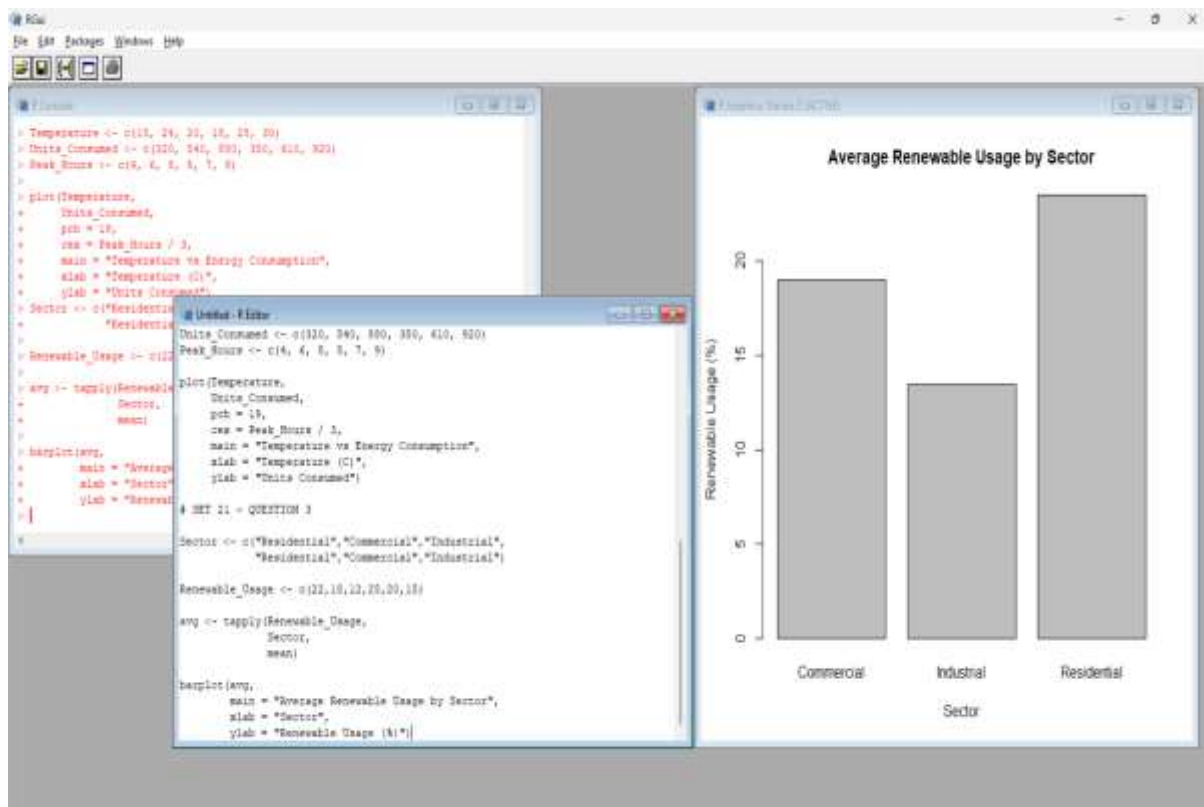

Q1. Histogram and Density Plot

Question 2-Temperature vs Units Consumed

Question 3-Average Renewable Usage by Sector

Question 4

Tableau

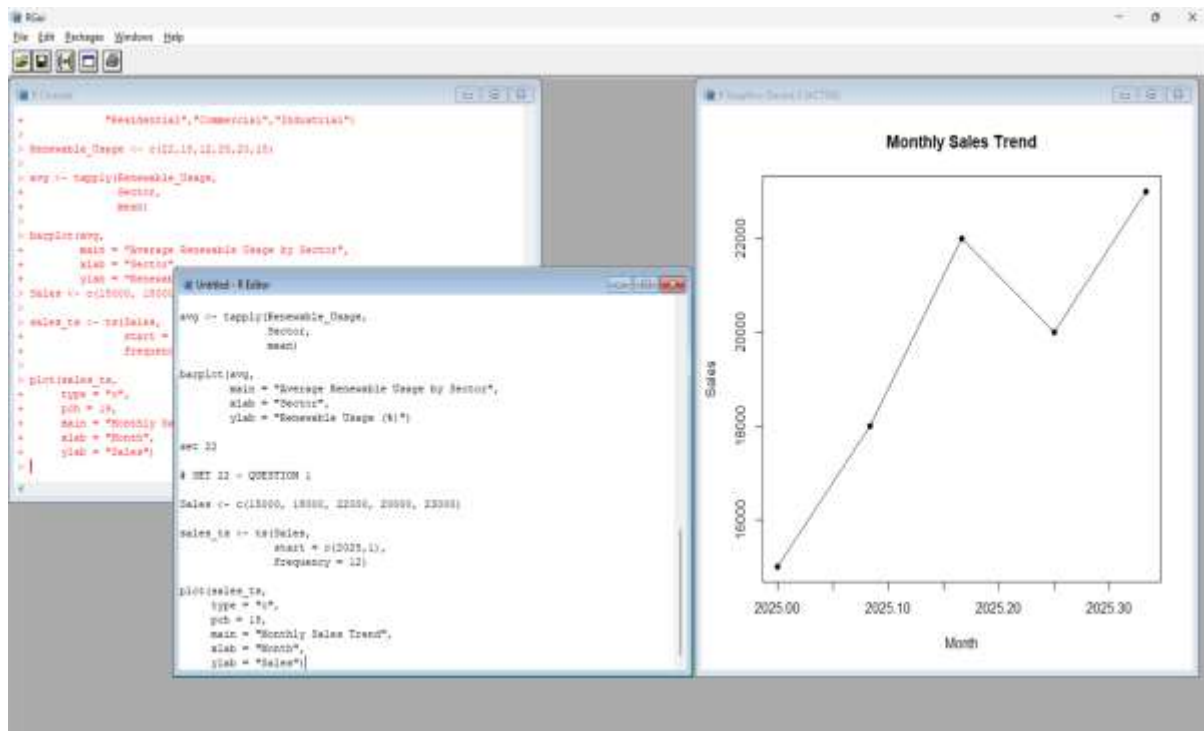

This question is for Tableau, so there is no R graph required.

Use:

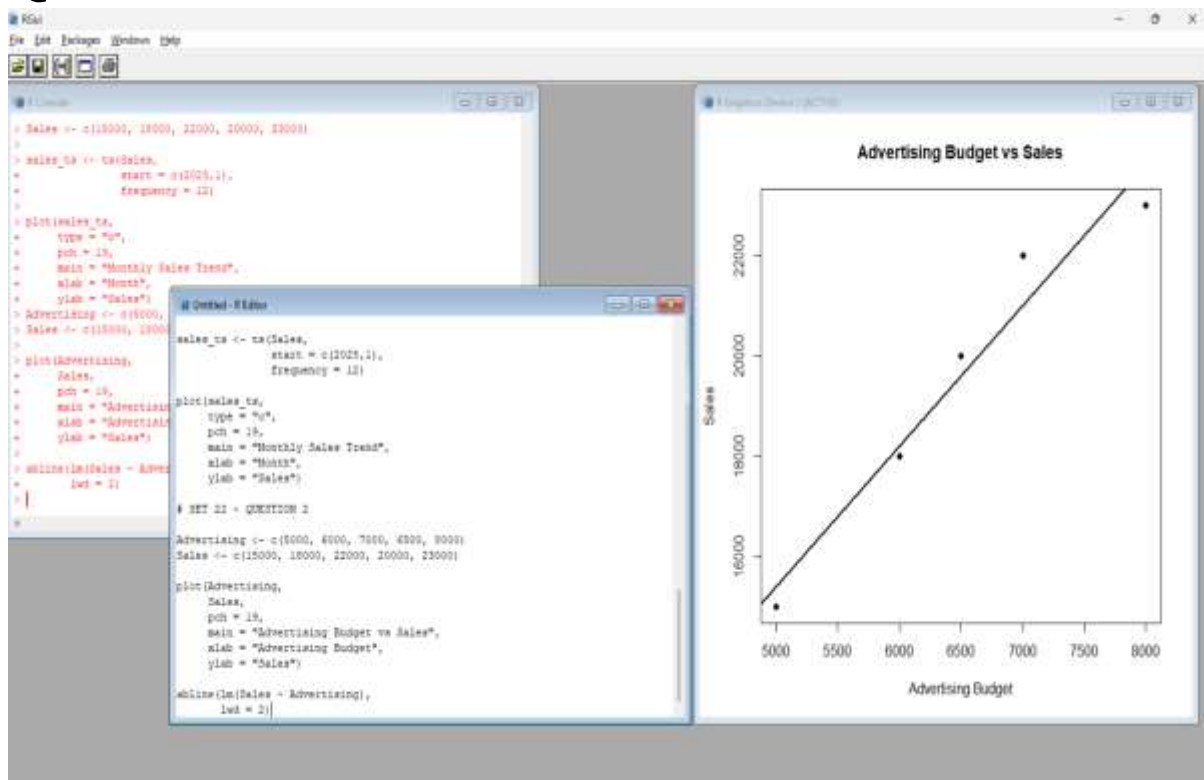

- Energy_Consumption_Data.csv
- Line chart → Month vs Units_Consumed
- Heatmap → Sector vs Region vs Units_Consumed
- Filters → Month and Sector

SET 22 – Time Series Analysis

Question 1

Question 2

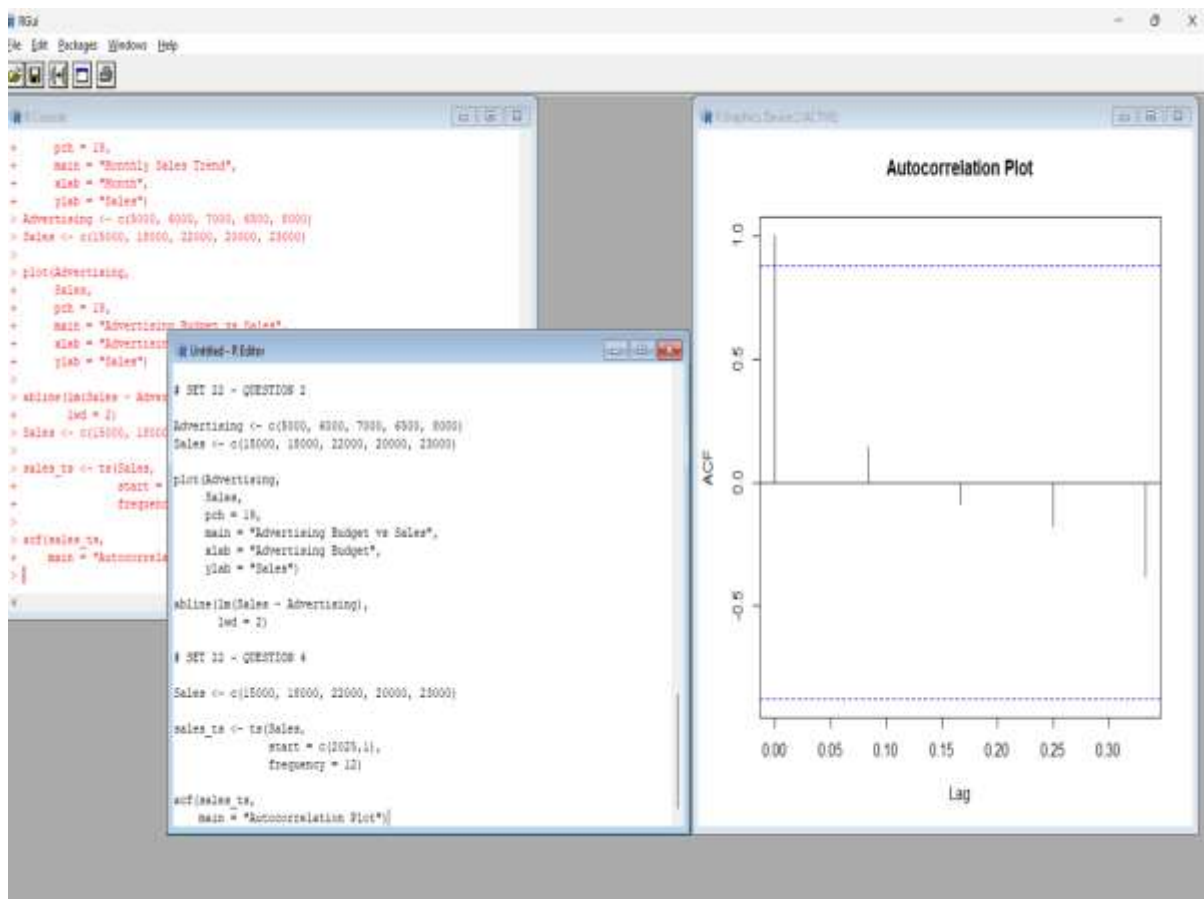

Question 3

Tableau

Create:

- Line chart → Month vs Sales
- Pie chart → Sales distribution across products
- Combine them into a dashboard.

Question 4

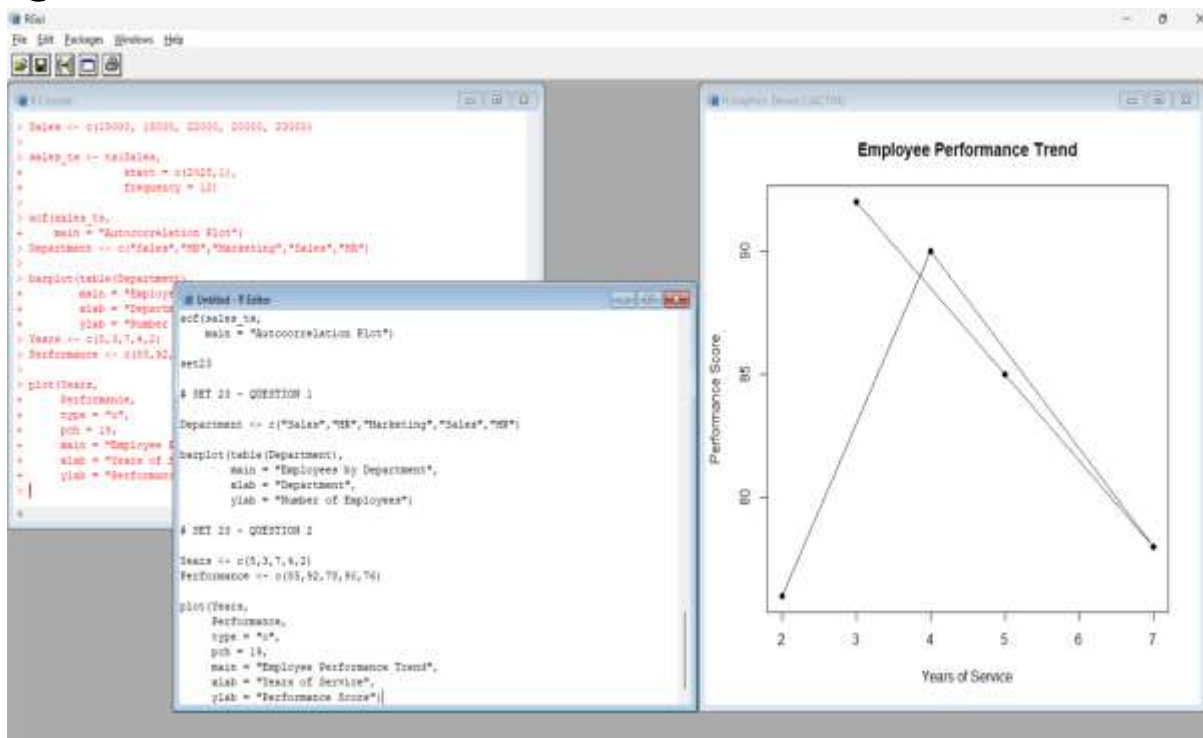

SET 23 – Employee Performance

Question 1

Question 2

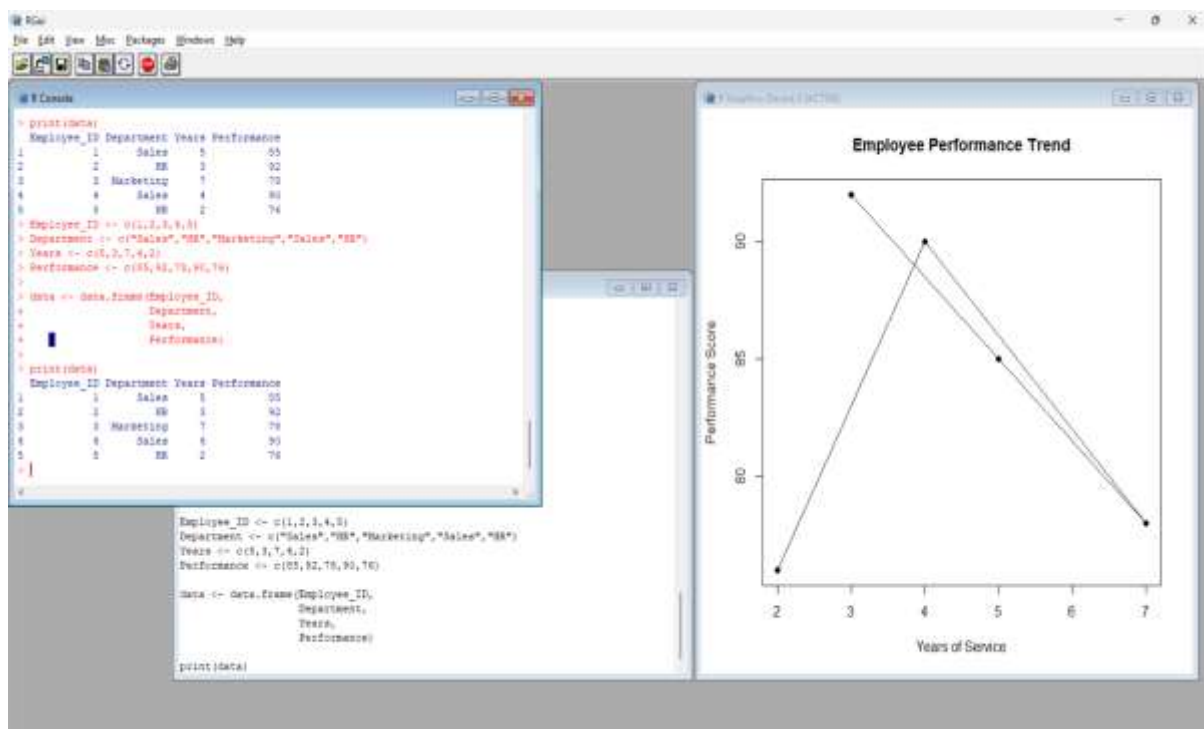

Question 3

Tableau

Create:

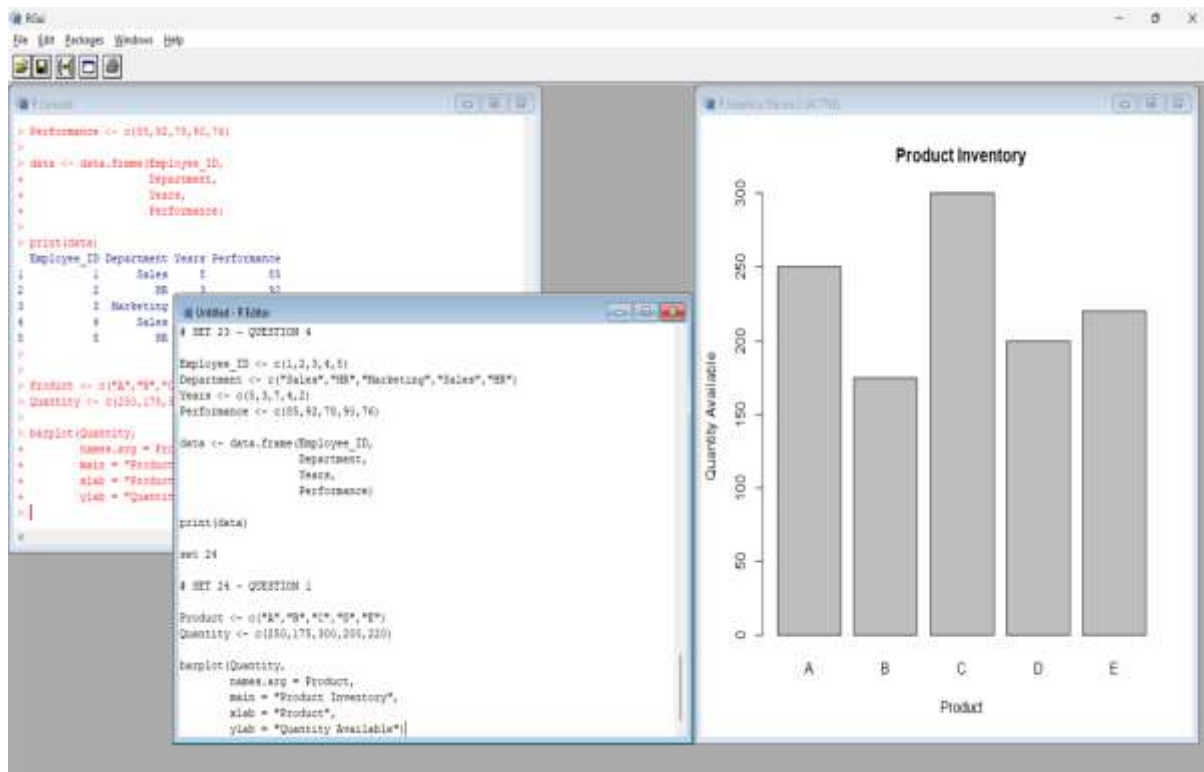

- Bar chart → Department vs Number of Employees
- Scatter plot → Years of Service vs Performance Score
- Combine into dashboard.

Question 4

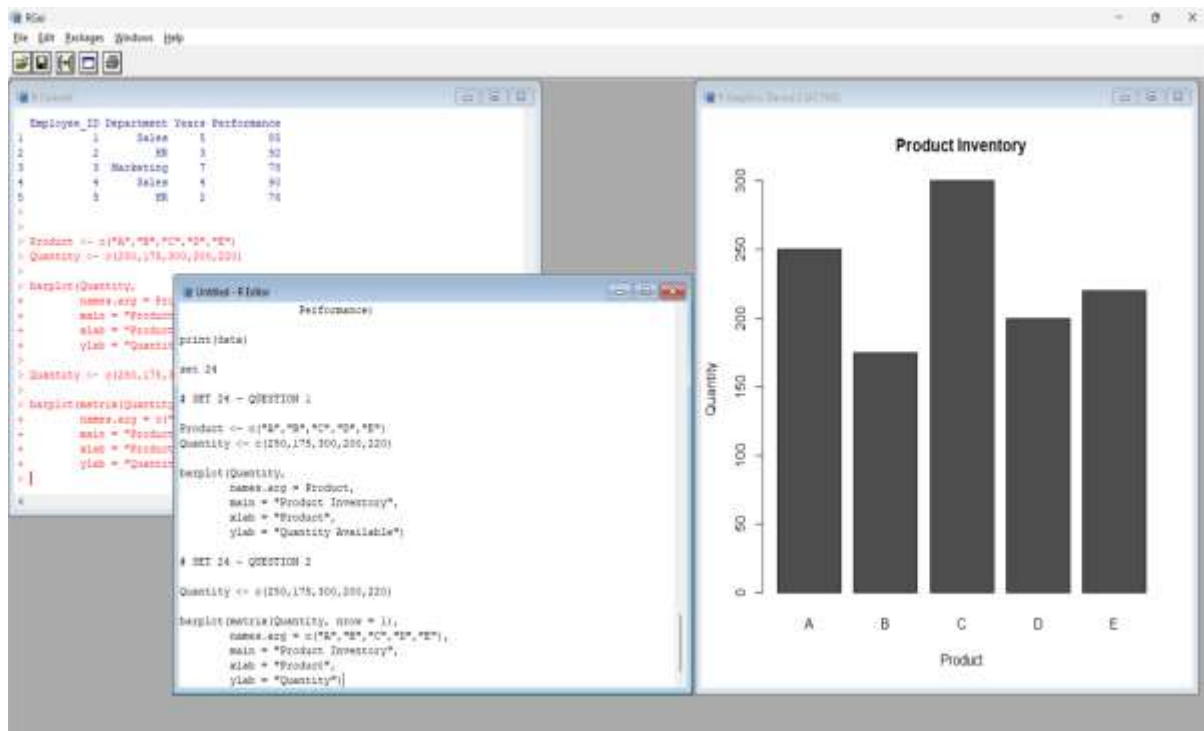

SET 24 – Product Inventory

Question 1

Question 2

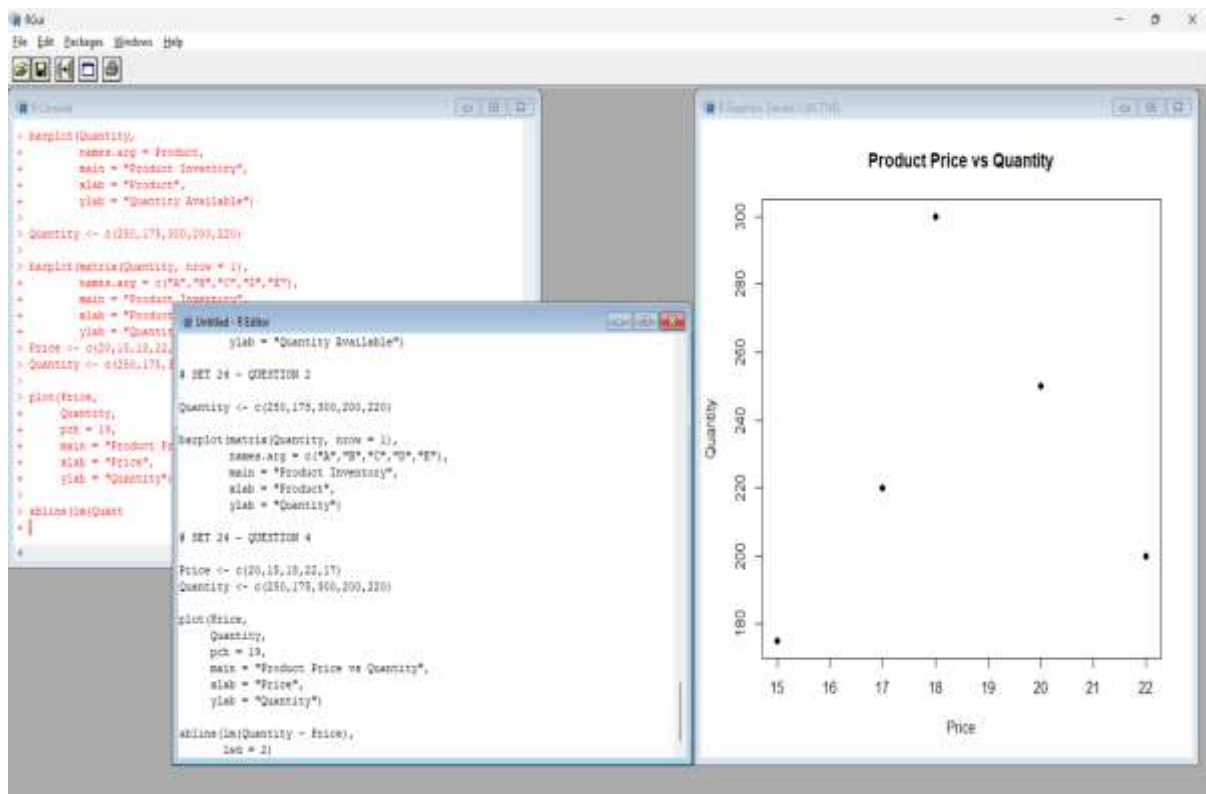

Question 3

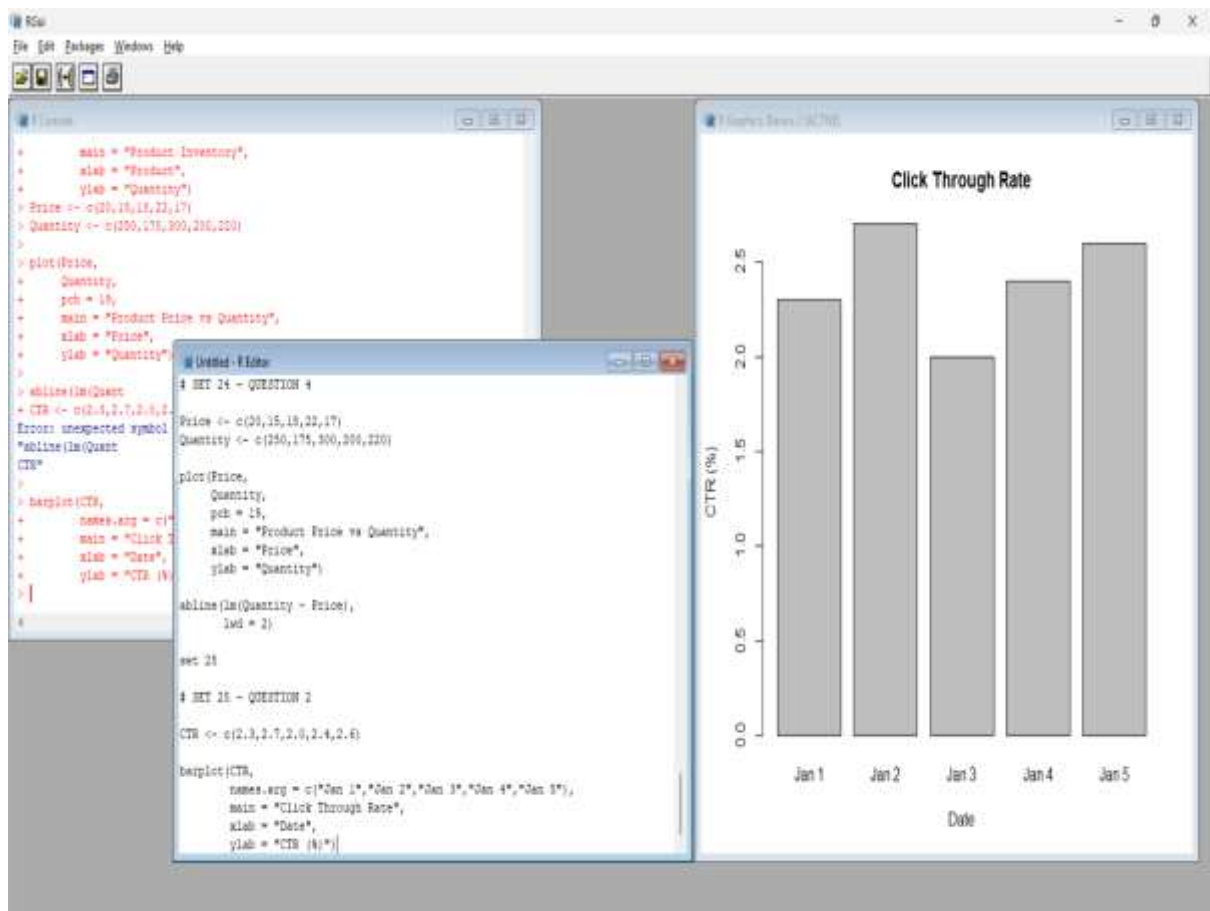

Tableau

Create:

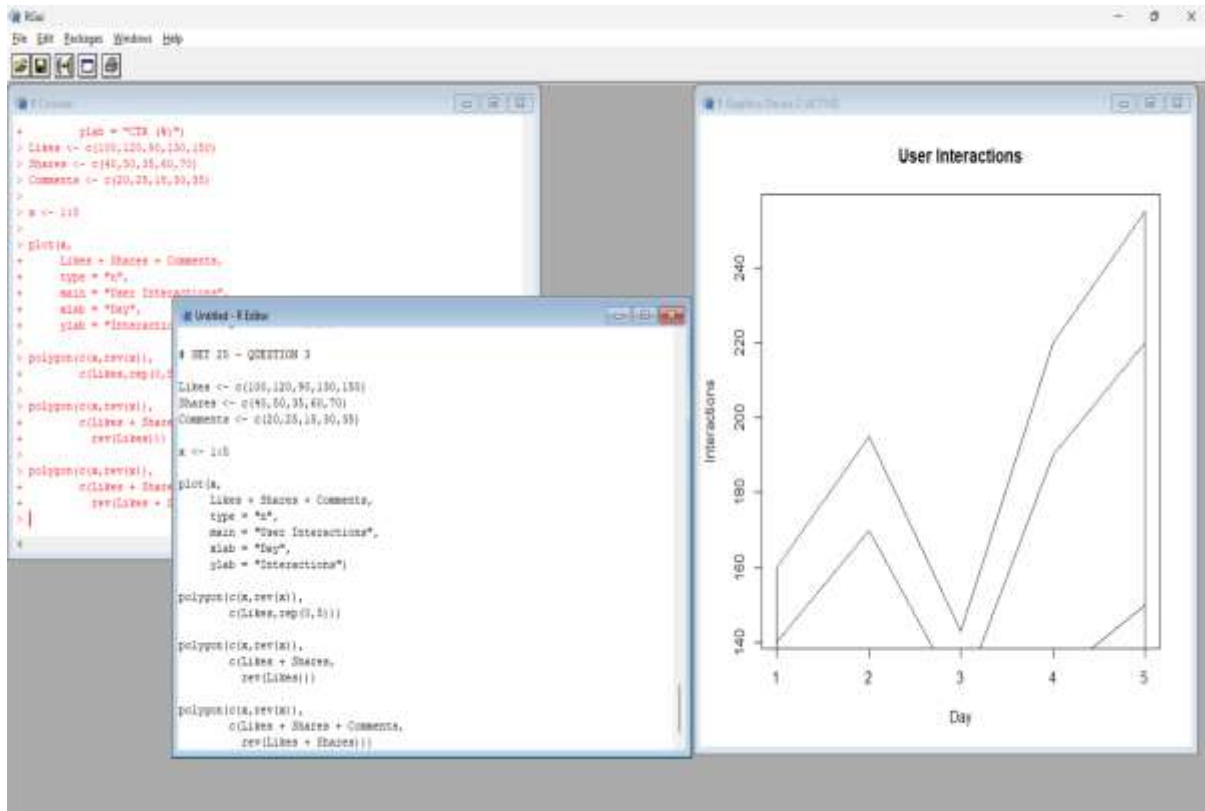

- Bar chart → Product Name vs Quantity Available
- Stacked bar chart → Product Category vs Quantity
- Dashboard → combine both.

Question 4

Question 3

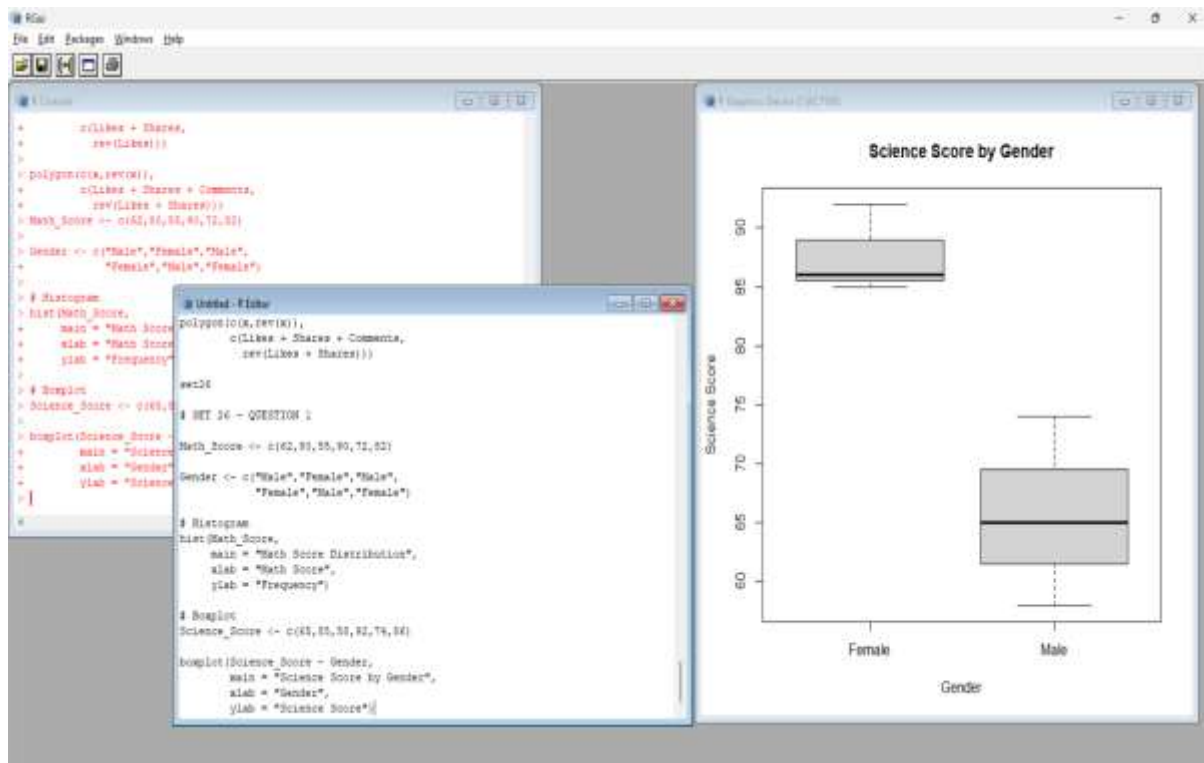

Question 4

Tableau

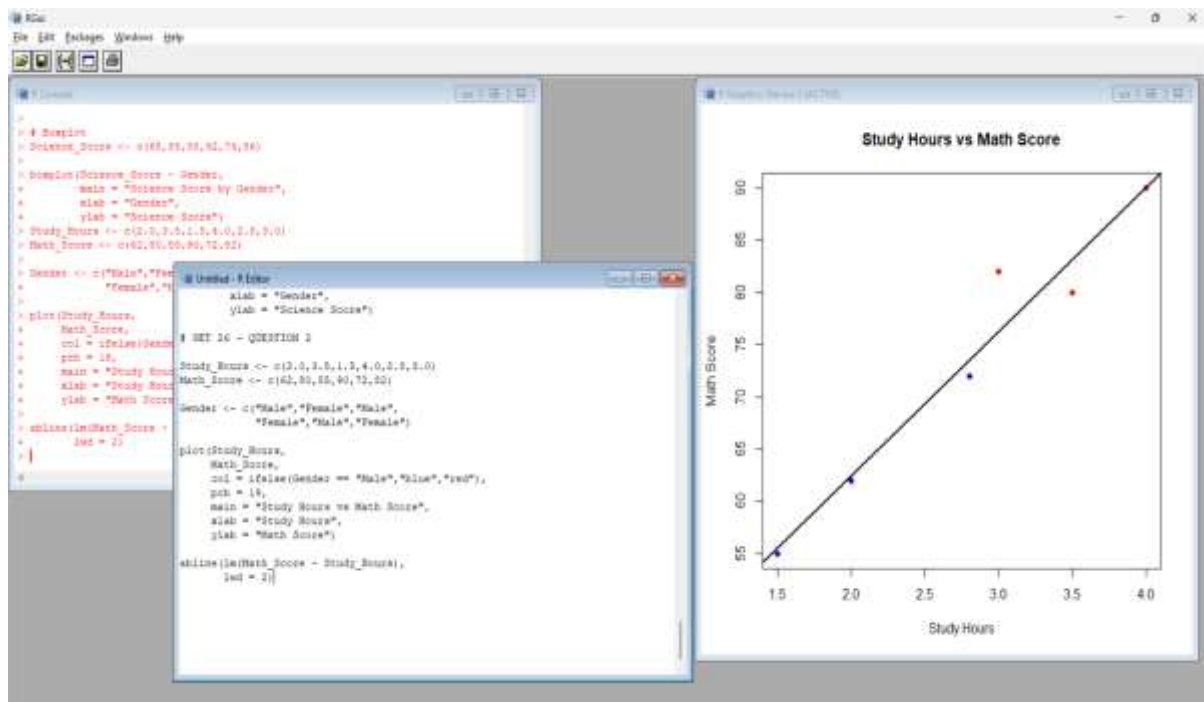

Create:

- Map → Traffic Sources
- Bar chart → Page Views by Source
- Combine into interactive dashboard.

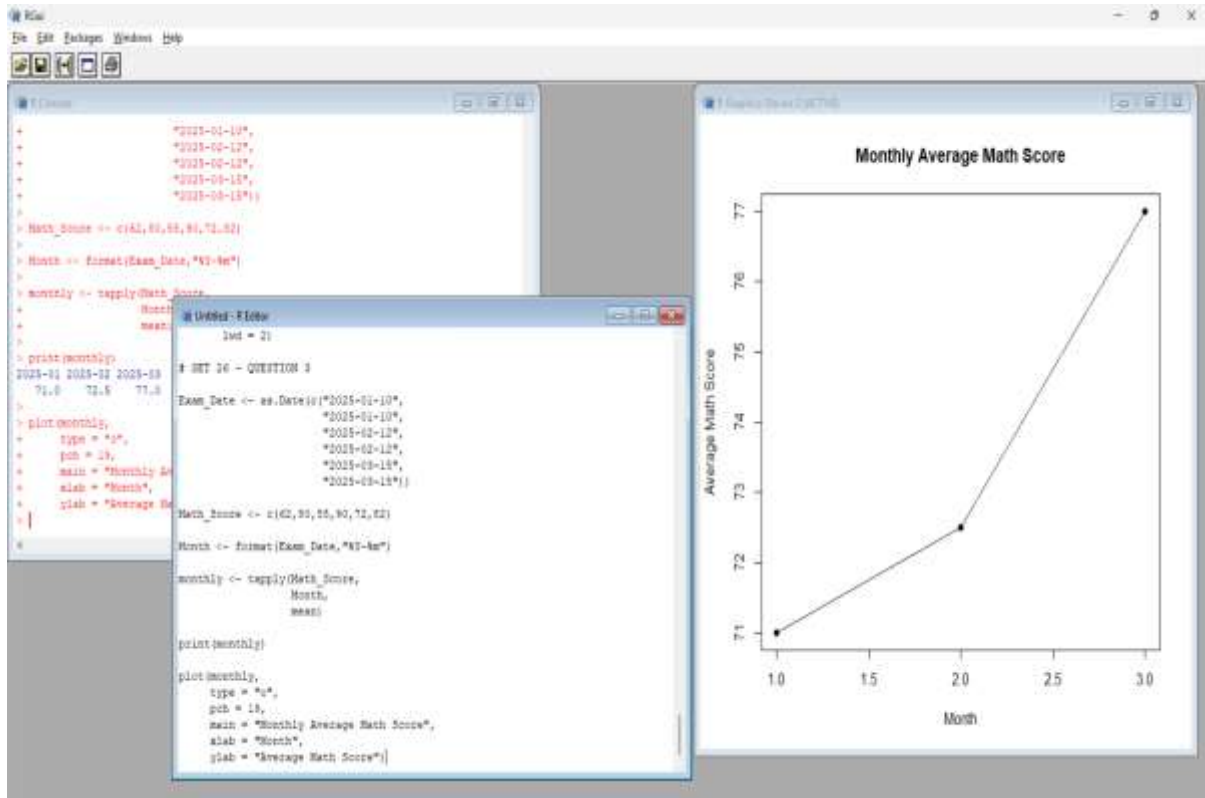

Question 1

Question 2

Question 3

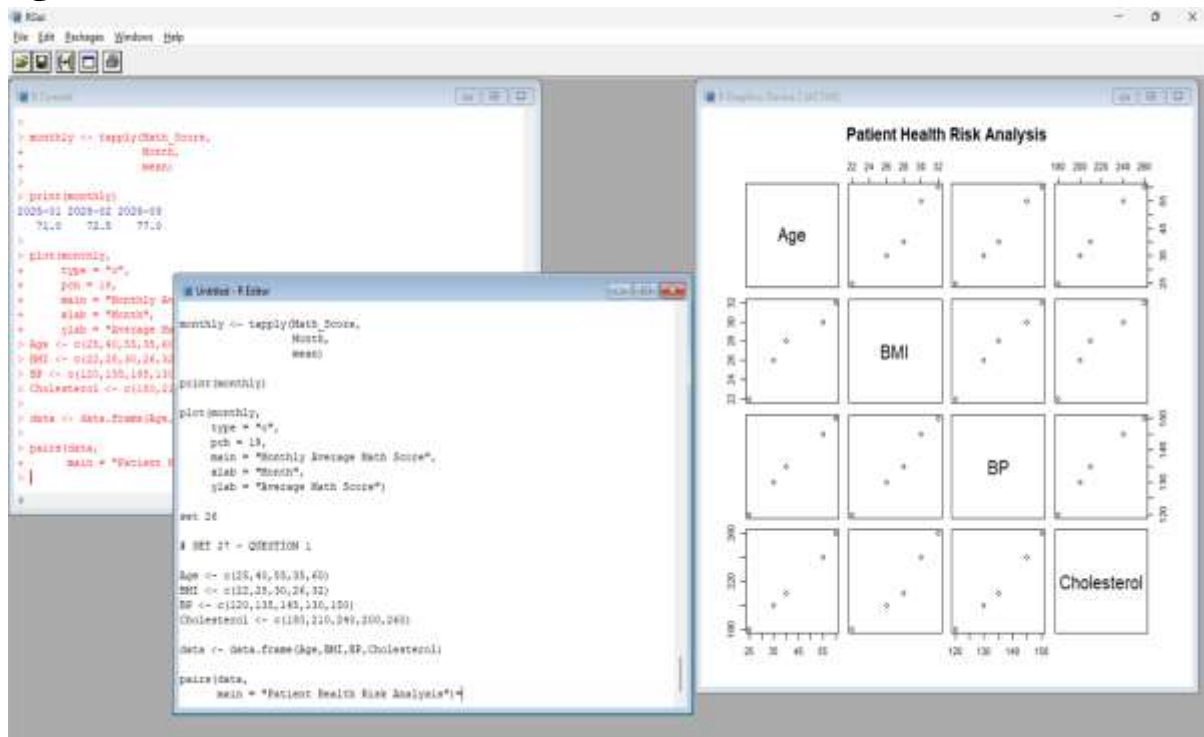

Question 4

Tableau

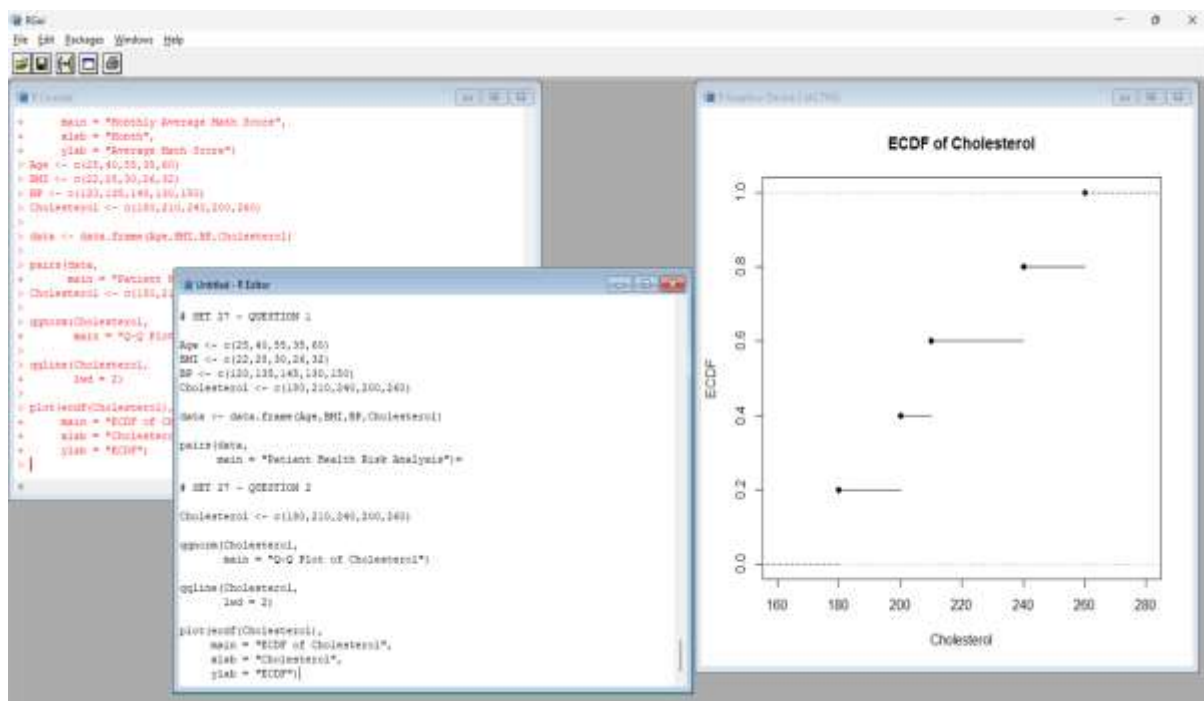

- Bar chart → Gender vs Average Math Score
- Line chart → Exam Date vs Math Score
- Filter → Exam Date
- Dashboard → Student Performance Dashboard

SET 27 – Patient Health Risk

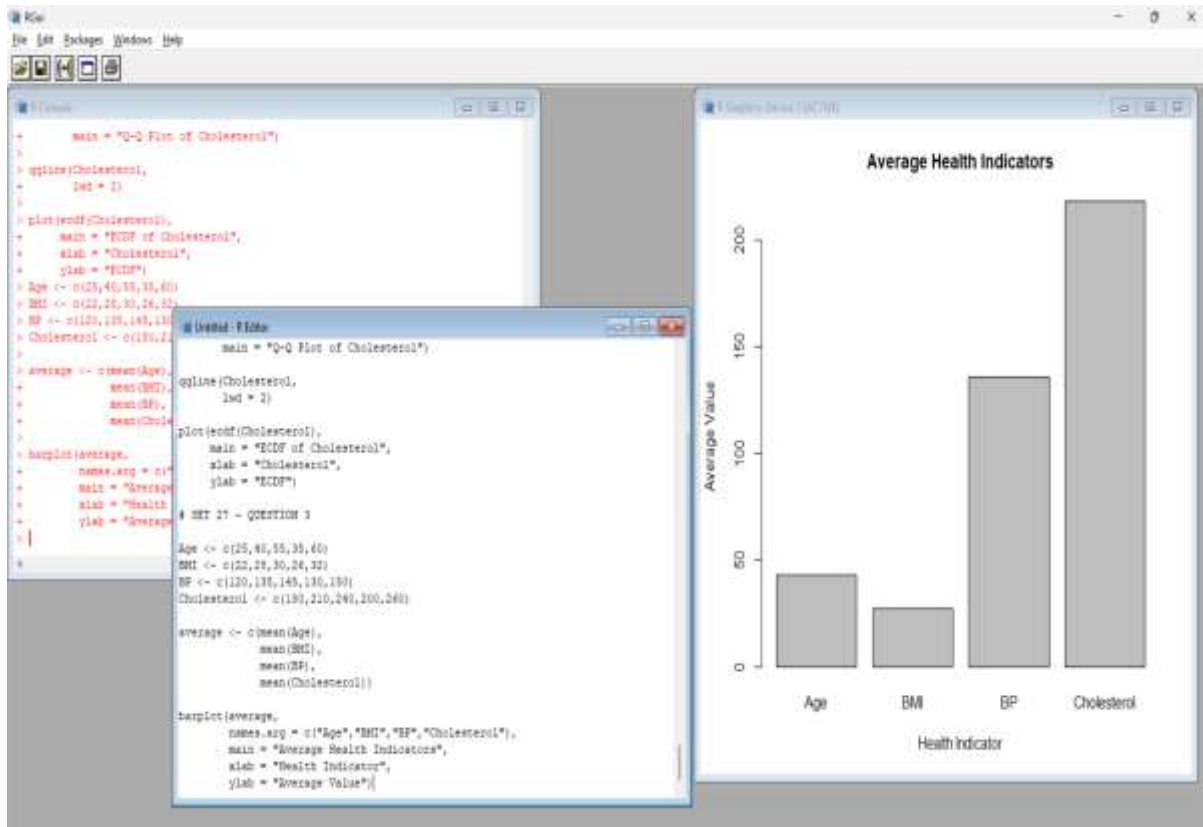

Question 1

Question 2

Question 3

Question 4

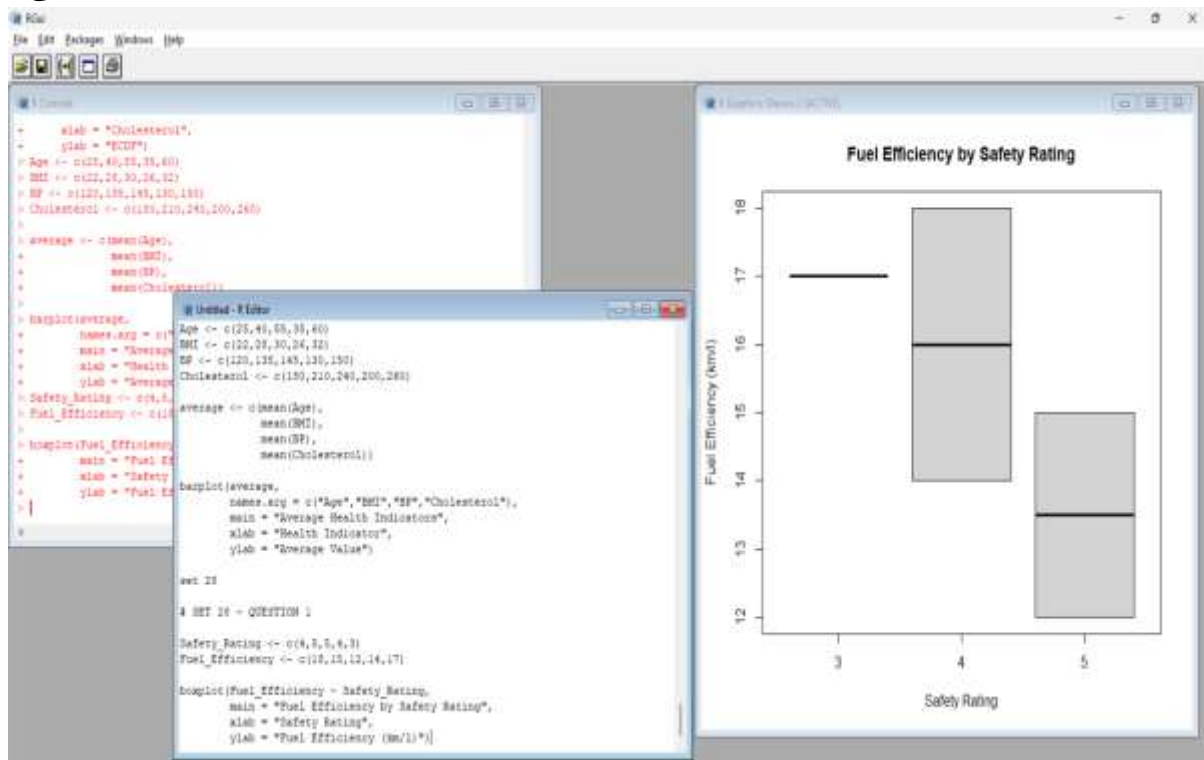

Tableau

Create:

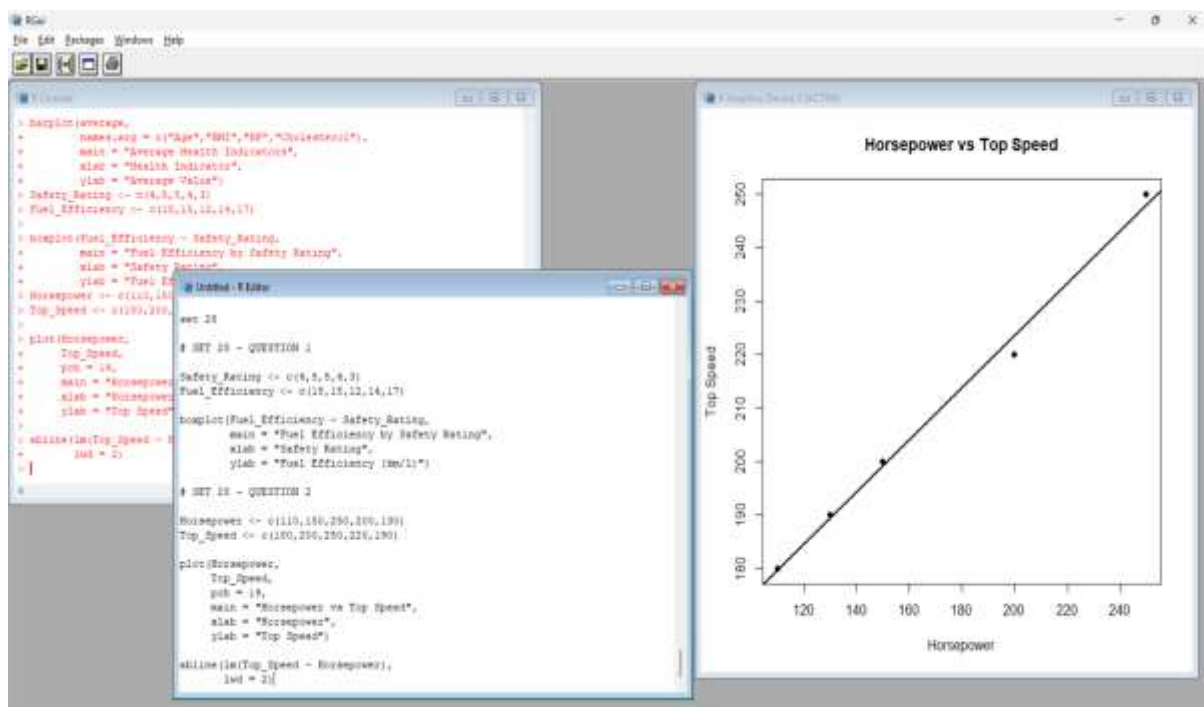

- Heatmap → Patient vs Health Indicators
- Filter → Age
- Tooltip → Age, BMI, BP, Cholesterol.

SET 28 – Vehicle Performance

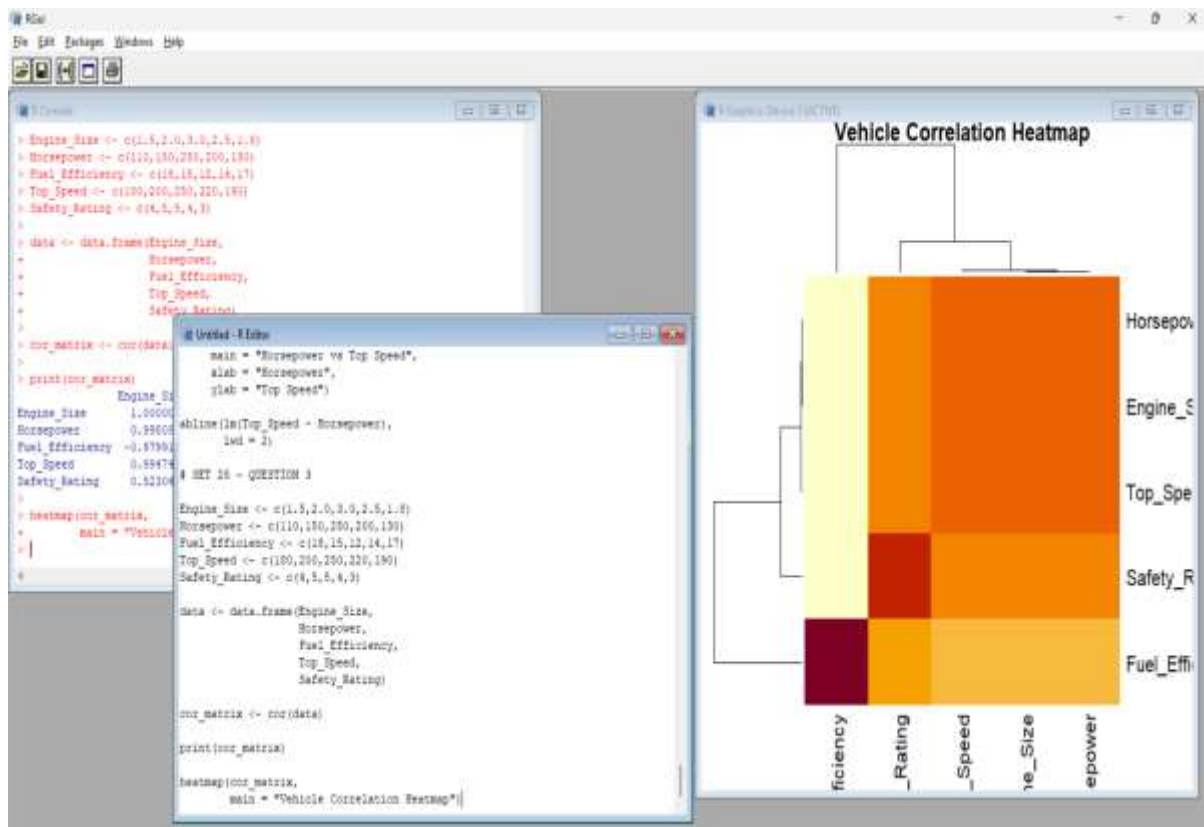

Question 1

Question 2

Question 3

Question 4

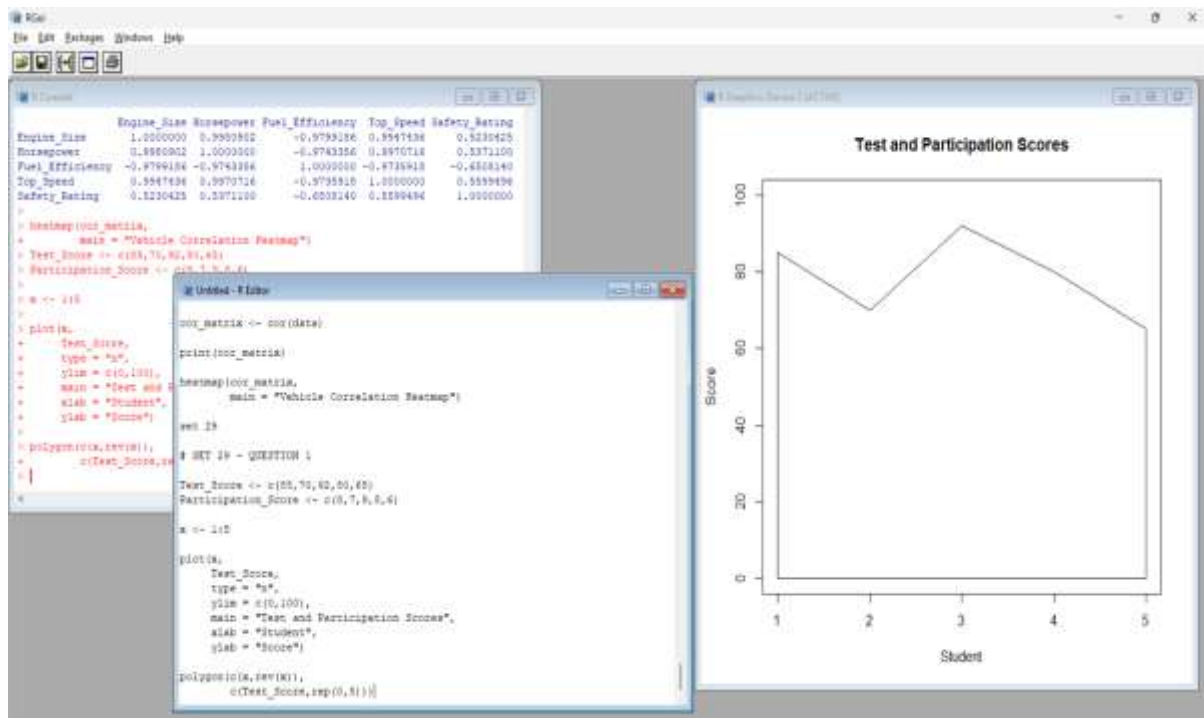

Tableau

Create:

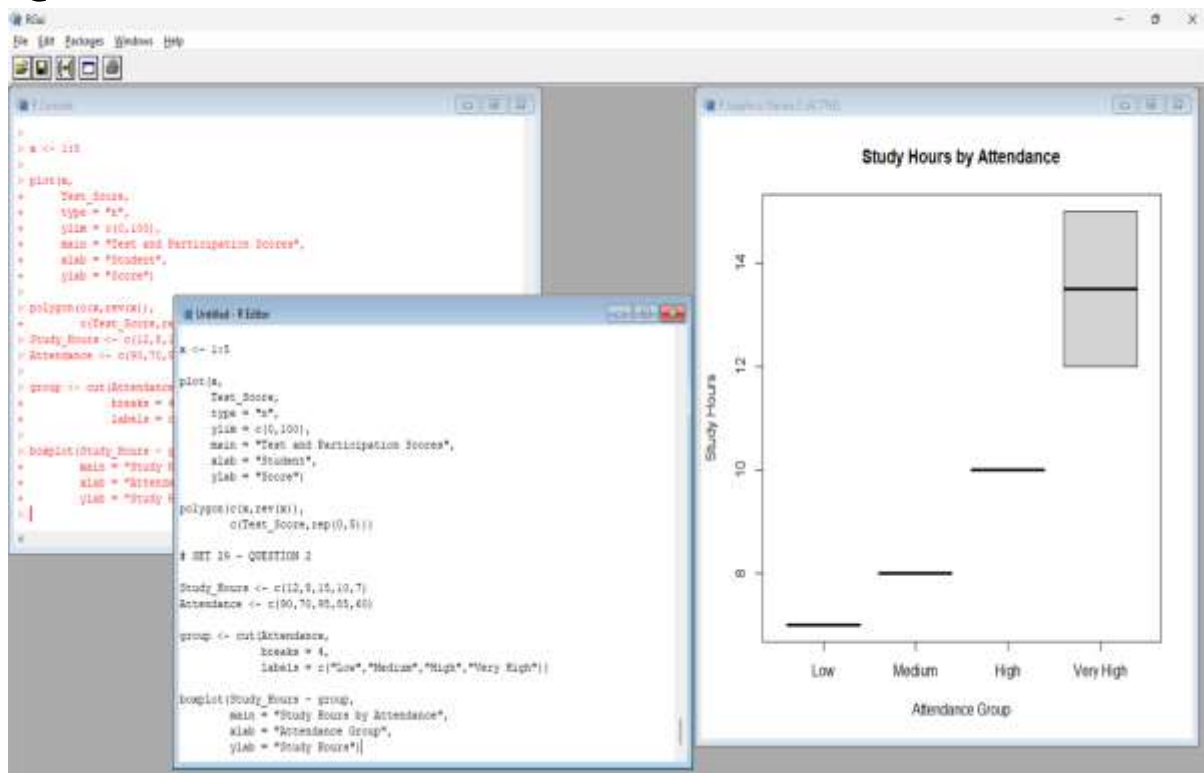

- Bar chart → Vehicle vs Fuel Efficiency
- Scatter plot → Horsepower vs Top Speed
- Filters → Engine Size, Safety Rating
- Dashboard → Vehicle Performance.

SET 29 – Student Academic Performance

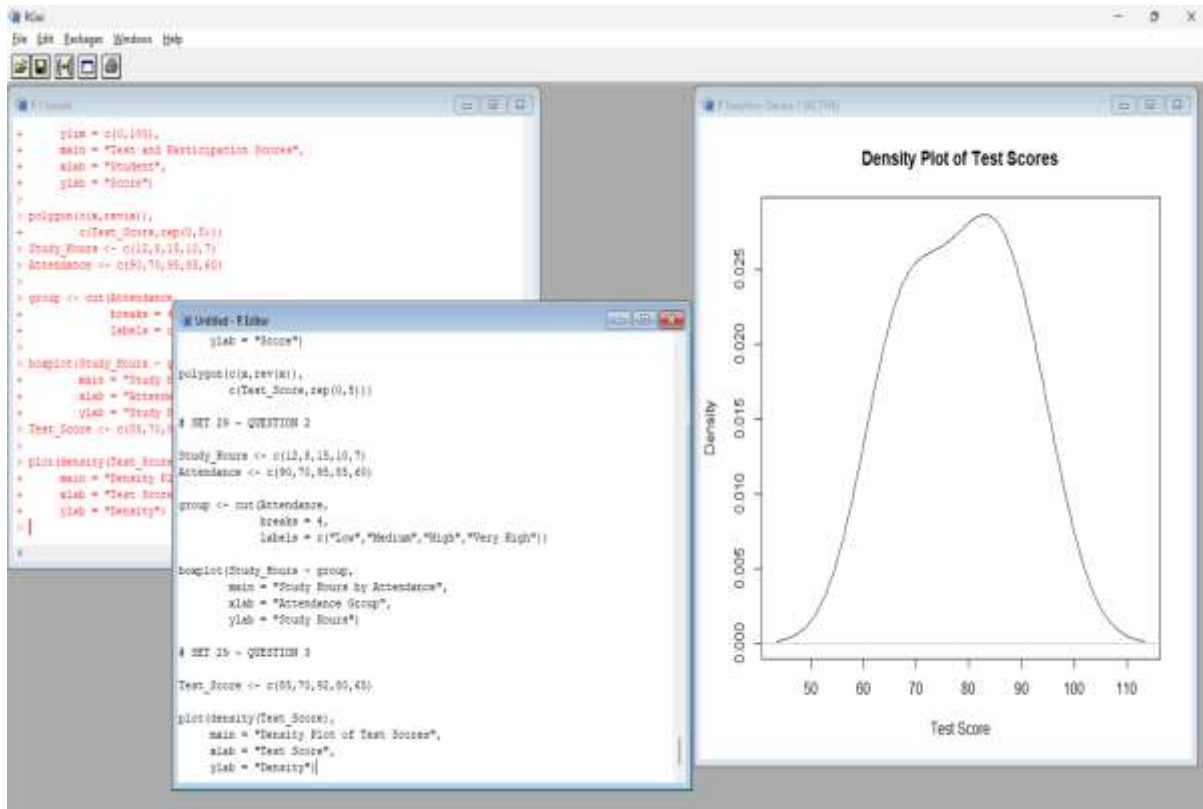

Question 1

Question 2

Question 3

Question 4

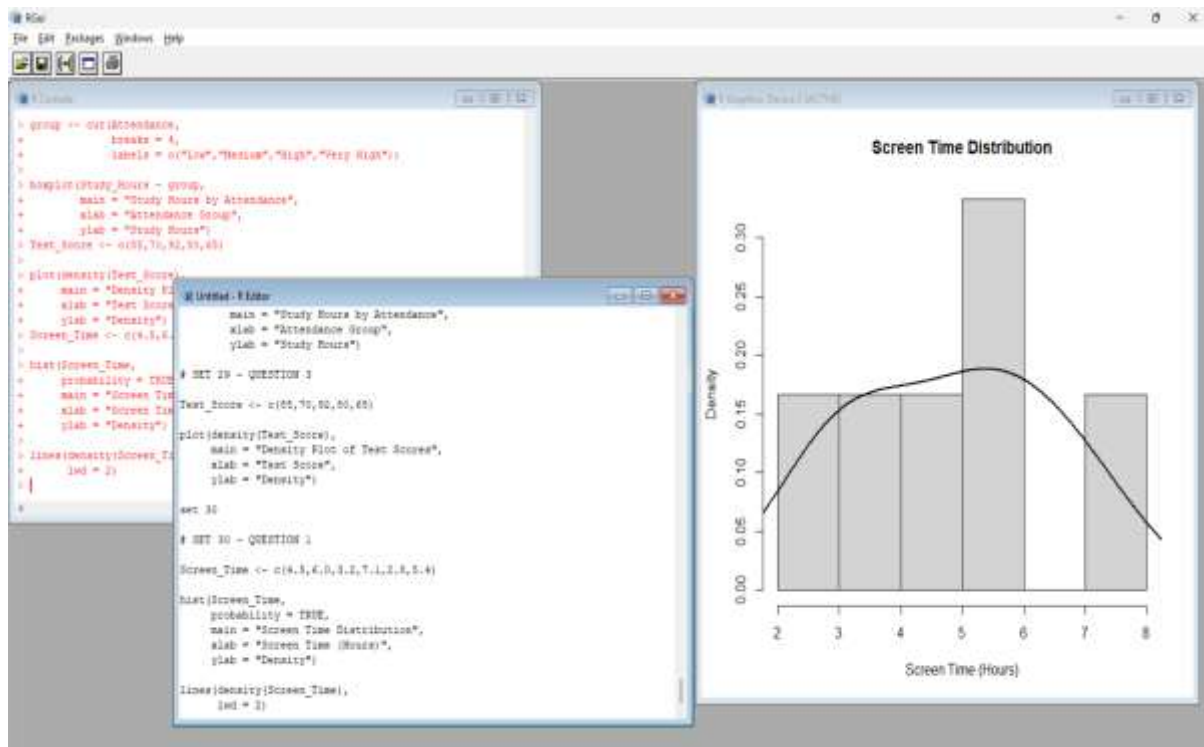

Tableau

Create:

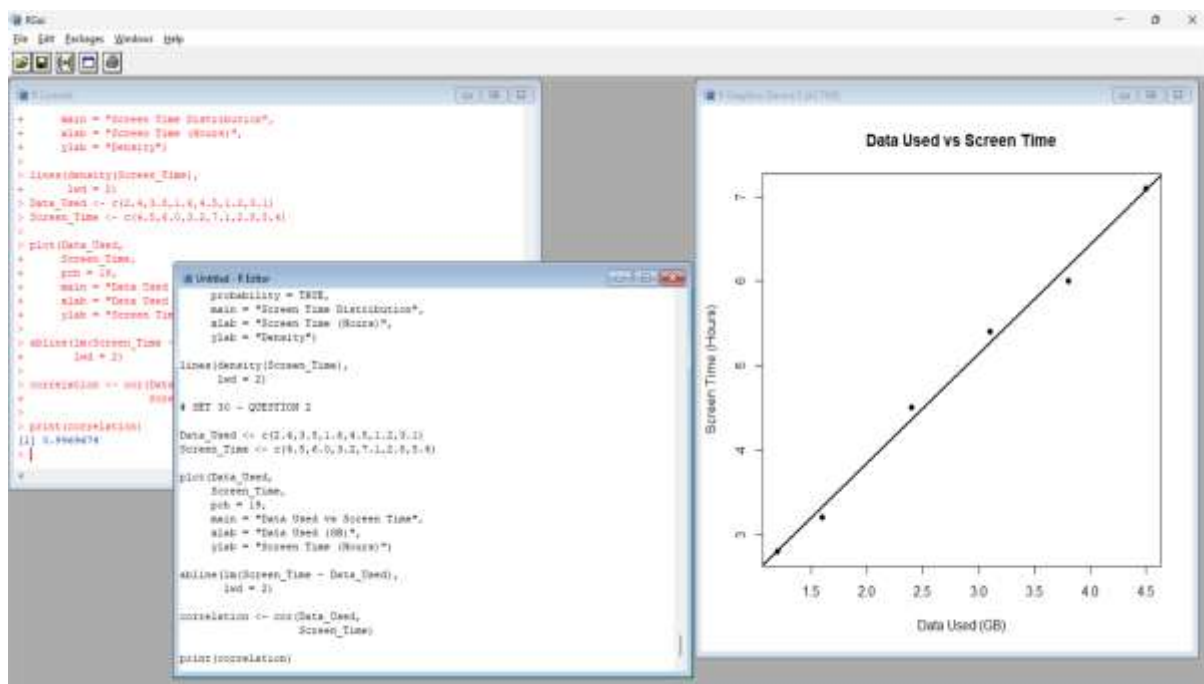

- Scatter plot → Study Hours on X-axis
- Test Score on Y-axis
- Color → Participation Score
- Filter → Age.

SET 30 – Mobile App Usage

Question 1

Question 2

Question 3

Question 4

Tableau

Create:

- Bubble chart → Screen Time vs Data Used
- Color → Gender
- Size → App Usage Count
- Line chart → Usage Date vs usage
- Filters → Gender and Usage Date.
